To Be Essential to the Communities We Serve.

ANNUAL REPORT
2020-2021
The fiscal year 2021 continued to be a challenging one for our region's communities, with a desire to get back to normal, yet still a sense of not being ready. It is times such as these when the community relies on WDSE•WRPT to be that consistent source of information and entertainment. Creating some normalcy amongst an uncertain time continued to be helpful for many to get through the day. We accomplished this through serving national PBS programming for adults and kids, and also making sure we continued to contribute a local perspective for each of you and your neighbors.

Local productions are what set us apart from other local media. During the last year we continued to discover more about our community members, sharing their stories and highlighting both the good and the opportunities that still exist. It is the voice that we give to the sometimes forgotten in our diverse communities that viewers count on and we are frequently told the extra time we give to stories is helpful for all to be aware of the work still to be done in our region.

Your support is so valuable for us to continue our vision of "being essential to every community we serve". Whether that be our efforts to expand our educational reach, highlighting the latest slice of life in the Northland, or exploring how local unsung heros are making a difference, you're helping us shine a light on our communities throughout our vast broadcast area, and beyond, creating sense of community.

Thank you for supporting WDSE•WRPT. We look forward to the year ahead in helping many make a difference where we live, learn, work and play.

With gratitude,

Patty Mester

The goal was to educate the community about how to get vaccinated, vaccine safety and hesitancy, and included a focus on underserved and at-risk communities and communities of color.

This program was awarded the 2021 Board of Governors Emmy Award by the Upper Midwest Chapter of the National Academy of Television Arts & Sciences.
